

# Balance<sup>TM</sup>

**“A Good Night’s Sleep to Keep You in Balance”**

**Nature & Science.** Flexible Foam Products has combined nature & science to bring you an alternative to rubber latex. **Balance**, made with high natural content, offers performance benefits over traditional synthetic and rubber latex foams.

-  Long lasting durability that exceeds rubber latex or polyurethane foams
-  Without the allergic responses created by rubber products
-  Natural content is higher than most “blended” latex foams

**Comfort & Quality.** Combining the benefits of high density conventional foams with the properties of rubber latex, **Balance** provides excellent support and extended durability for a long lasting mattress.

-  Top to bottom ventilation to maximize air circulation.
-  Soft and springy resilience providing therapeutic support
-  High comfort to distribute body weight and relieve pressure areas.

# Balance

“Allowing Technology to Provide You Balance in Your World”

## Performance & Technology:

This is our latest innovation in our BioFlex Hybrid Foam line, delivering our commitment to providing “greener” products. **Balance** is manufactured using our strategic, award-winning process, EnviroFlex Technology. An industry leading, environmentally friendly system that provides exceptional physical properties.
