

HIGH COMFORT

Superior comfort with maximum support.

High Comfort or high resilience (HR) foam is designed to be the premium combination of support, comfort, and bounce. Offering you luxurious bedding and cushioning for years to come.

- ✓ Superior Comfort
- ✓ High Energy
- ✓ Optimum Support
- ✓ Therapeutic Attributes
- ✓ Advanced Durability
- ✓ No Fatigue
- ✓ Extended Product Life
- ✓ Hypo-Allergenic

Ideal for furniture or bedding applications with the objective to provide excellent resilience and high load-bearing properties, thereby providing optimum seat stabilization, pressure point relief, and the ability to bounce back after being compressed.

HIGH COMFORT

HR foams are designed to push up as your weight pushes down, giving each part of your body individual support. Its surface is soft yet responsive, providing premium comfort you didn't think you could get with the firmness you need.

Take a load off with HR Foams.

Specifications:
